SEACHANGE INTERNATIONAL REPORTS SECOND QUARTER FISCAL 2020 RESULTS

Revenue Increases by 58% as Framework Offering Gains Traction
Management Reiterates Full Year Guidance
Yossi Aloni Named Chief Executive Officer

ACTON, Mass. (August 29, 2019) – <u>SeaChange International, Inc.</u> (NASDAQ: SEAC) today reported second quarter fiscal 2020 revenue of \$18.8 million and a net loss of \$0.2 million, or \$0.00 per basic share, compared to second quarter fiscal 2019 revenue of \$11.9 million and a net loss of \$9.1 million, or \$0.26 per basic share.

Quarterly and Recent Highlights

- Announced the release of the Framework 7th generation Backoffice, a major milestone for this product family. This critical
 element of the Framework solution is significantly re-architected for ease of deployment and maintenance for the Framework
 customers. Also released Orchestrator and Analytics engines, which are critical value-adding components of the Framework.
- Won seven customers since the beginning of the fiscal year covering multi-year commitments for the Framework video delivery platform amounting to more than \$20 million in total deal value.
- Ended the quarter with \$16 million in backlog, an increase of \$5 million, or 45%, from April 30, 2019.
- Recorded \$18.8 million of revenue with the majority from Framework deals.
- Recorded nearly break-even net earnings on a GAAP basis and non-GAAP operating income of \$1.0 million in the quarter.
- Initiated a share repurchase program in June; purchased 100,000 shares for a total consideration of approximately \$140,000 in the quarter.

Today SeaChange is also announcing that effective immediately, Yossi Aloni, has been appointed President and Chief Executive Officer of the Company. Mr. Aloni, who joined SeaChange in January 2019 as Chief Commercial Officer, strategized, developed and implemented the Framework solution and Go-to-Market strategy that is responsible for the Company's recent growth. Chad Hassler, who has served as Head of North American Sales,

has been named Chief Commercial Officer; Mr. Hassler joined SeaChange earlier this year and brings more than 20 years of experience in sales and marketing in the video delivery domain to the Company.

Mark J. Bonney, Executive Chairman said, "We are very pleased with our achievements in the second quarter. The number of Framework deals closed and in the pipeline is solid evidence that the strategy of offering an end-to-end video delivery platform is working. Revenues, mainly from the Framework deals, along with the benefits of the consolidation of our R&D resources in Warsaw, which produced the Backoffice 7th generation in one year, and our continual focus on every element of cost in the business allowed us to achieve non-GAAP operating profitability in the second quarter and earlier than previously expected." Mr. Bonney added, "I congratulate Yossi on his appointment, which reflects the entire Board's confidence in his ability to step up to the Chief Executive Officer role and lead SeaChange going forward."

Yossi Aloni, Chief Executive Officer, commented, "I thank the Board for showing their confidence in me and I look forward to leading SeaChange as CEO during these exciting times for the Company and the industry". Mr. Aloni added "I am pleased with our Framework wins in the first half of this year. In the second quarter we began to recognize revenue from some of the customers who have adopted our solution. Based upon our expanding engagement with new and existing customers, we continue to expect transactions involving the Framework solution to increase materially in the back half of the year, in line with our annual guidance. With our results in the first half of this fiscal year, and the second quarter particularly, we remain confident about our ability to achieve our annual revenue guidance."

The Company's U.S. GAAP second quarter fiscal 2020 results included charges of \$1.7 million used in non-GAAP calculations, which consisted of amortization of intangible assets from prior acquisitions of \$0.3 million, severance and other restructuring costs of \$0.7 million, stock-based compensation of \$0.6 million and professional fees of \$0.1 million. Second quarter fiscal 2019 results included charges of \$1.9 million used in non-GAAP calculations, which consisted of stock-based compensation of \$0.9 million, amortization of intangible assets from prior acquisitions of \$0.4 million and severance and other restructuring costs of \$0.5 million. Non-GAAP income from operations in the second quarter of fiscal 2020 was \$1.0 million, or \$0.03 per fully diluted share, compared to a non-GAAP net loss from operations in the second quarter of fiscal 2019 of \$6.4 million, or \$0.18 per basic share.

For the first six months of fiscal 2020, the Company reported revenue of \$27.3 million and a net loss of \$11.0 million, or \$0.30 per basic share, compared to revenue of \$26.8 million and a net loss of \$14.6 million, or \$0.41 per basic share in the same period in the prior fiscal year. The non-GAAP loss from operations for the first six months of fiscal 2020 was \$6.5 million, or \$0.18 per basic share, compared to a non-GAAP loss from operations of \$10.2 million, or \$0.29 per basic share, in the first half of fiscal 2019.

Outlook

Update on the Company's key metrics for fiscal 2020:

- Goal: Close 20-25 significant deals for multiple product/service offerings on an annual basis. Progress: Closed seven significant deals since the beginning of the fiscal year on February 1, 2019.
- Goal: Increase total annual revenue in the low to mid double digits percentage range to \$70-80 million, despite lower year-over-year service revenues. Progress: The Company is encouraged by the growth of the Framework deal pipeline and remains confident in the full year revenue target.
- Goal: Maintain GAAP gross margins in the low 60 percentage range. Progress: While legacy gross margins resulted in lower overall gross margins in the first half of fiscal 2020, gross margins contributed by the Framework deals in the first half of the fiscal year exceeded 60% and will drive overall gross margins above 60% in the second half of fiscal 2020.
- Goal: Complete the development of three significant new product offerings. Progress: With the release of flagship Adrenalin 7.0, along with Orchestrator 1.0 and Analytics 1.0, product development efforts have already achieved this goal.
- Goal: Continue to reduce costs by focusing on reducing essential third-party costs and eliminating non-essential costs. Progress: Efforts to reduce third-party costs were significantly achieved in Q2 with full annualized savings impact anticipated beginning in Q3. Work here is continuing as we align the organization with the realities of the business needs as the Framework solution continues to roll out. As a result of these continuing efforts, which are anticipated to be competed in the fourth quarter of this fiscal year, we anticipate significant additional savings in FY 2021.
- Goal: Deliver GAAP operating results between a loss of \$0.09 per basic share to income of \$0.07 per fully diluted share and non-GAAP operating income between \$0.03 to \$0.19 per fully diluted share. Progress: Management continues to believe this goal can be met for the full year.
- Goal: Increase cash by \$3-6 million to \$28-31 million. Progress: The Company has re-evaluated this goal based on the early Framework deals where payments have been spread over time as opposed to our original goal which assumed payments for Framework deals would be more front-end loaded. We now expect cash to be in the range of \$22-25 million at year end.

SeaChange management continues to believe that achieving these goals will establish the foundation for a business model that could result in sustainable double-digit revenue growth and non-GAAP operating income growth of 12-15% in 2 to 3 years.

These GAAP estimates are subject to a number of variables that are outside of management's control, including the size of restructuring expenses, which are influenced by the timing of certain non-U.S. restructuring activities and stock price fluctuations.

We define non-GAAP loss from operations as U.S. GAAP operating loss plus stock-based compensation expenses, amortization of intangible assets, non-operating expense professional fees and severance and other restructuring costs. We discuss non-GAAP loss from operations in our quarterly earnings releases and certain other communications, as we believe non-GAAP operating loss from operations is an important measure that is not calculated according to U.S. GAAP. We use non-GAAP loss from operations in internal forecasts and models when establishing internal operating budgets, supplementing the financial results and forecasts reported to our Board of Directors, determining a component of bonus compensation for executive officers and other key employees based on operating performance and evaluating short-term and long-term operating trends in our operations. We believe that the non-GAAP loss from operations financial measure assists in providing an enhanced understanding of our underlying operational measures to manage the business, to evaluate performance compared to prior periods and the marketplace, and to establish operational goals. We believe that the non-GAAP financial adjustments are useful to investors because they allow investors to evaluate the effectiveness of the methodology and information used by management in our financial and operational decision-making.

Non-GAAP loss from operations is a non-GAAP financial measure and should not be considered in isolation or as a substitute for financial information provided in accordance with U.S. GAAP. This non-GAAP financial measure may not be computed in the same manner as similarly titled measures used by other companies. We expect to continue to incur expenses similar to the financial adjustments described above in arriving at non-GAAP loss from operations and investors should not infer from our presentation of this non-GAAP financial measure that these costs are unusual, infrequent or non-recurring. The following table includes the reconciliations of our U.S. GAAP loss from operations, the most directly comparable U.S. GAAP financial measure, to our non-GAAP loss from operations for the three and six months ended July 31, 2019 and 2018:
